EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth Sibley on 8/6/04.

The application has been amended as follows:

In the claims:

3. (Presently amended) The method of claim 1 where said chemotherapeutic agent is selected from the group consisting of daunorubicin, doxorubicin, mitoxantraone, and bisanthrene.

Drawings

The drawings filed on 10/28/97 are acceptable subject to correction of the informalities. In order to avoid

Art Unit: 1636

abandonment of this application, formal drawings meeting all requirements of the drawing rules are required in reply to the Office action. The correction will not be held in abeyance.

The following is an examiner's statement of reasons for allowance:

Applicant's new arguments filed 7/20/04 were carefully considered and were found to be persuasive in overcoming the obviousness rejection of record. Because the closest prior art of record which is the primary reference in the obviousness rejection, Adams et al, is drawn to increasing p53 levels in normal cells to reduce their sensitivity to higher doses of cytotoxic drugs and the secondary reference, Gjerset, is drawn to increasing (normal) p53 levels through exogenous administration to cancer cells to enhance cytotoxicity, the two references would not have been considered to be analogous and thus it would not have been obvious to combine the two teachings to result in the claimed invention. Thus, there would not have been a reasonable expectation of success and one of ordinary skill

Art Unit: 1636

in the art would not have been motivated to combine the teachings to result in the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
